European Public Sphere Webinar

LET'S GET TOGETHER

A Stage for European Voices!

UKRAINIAN VIBES
EUROPEAN PUBLIC SPHERE

Open Space for Discussion on the Future of Europe

Ukrainian Vibes – European Public Sphere

You're a dreamer with a heart that beats European? You're not the only one of course!
Join the Ukrainian Vibes – European Public Sphere Tour 2.0 and discuss with people from all over Europe! Together with you we want to collect visions and solutions for Europe's future in the crucial and urgent fields of democracy, sustainability and European integration with a special focus on Ukraine. In 3 sessions we offer you to choose between 3 breakout rooms with different subtopics, including one ukrainanspeaking breakout room per session. In each breakout room you can openly discuss the respective topic with the guidance of invited speakers. After our dialogues have come to an end in October, we will bring your ideas to the Conference on the Future of Europe and to European stakeholders.

Session 2

Smart Citizens, Wise Decisions — Sustainability
14 September 2021, 18:00 – 19:30 CEST via Zoom
Sustainable development is recognized today as one of the most significant challenges the world community has to face. While sustainability requires political cooperation at all levels, cities play a vital role in securing and designing future-proof livelihoods. Bringing the subject from the global to the local level, in this session, we want to discuss opportunities and solutions for sustainable cities and for our everyday life.

Smart Citizens, Wise Decisions — Sustainability

Breakout Rooms to choose:

Breakout Room 1 (ukr)
Smart Cities & Integrated City Development I
The concept of a „smart city" is becoming more and more relevant. Some imagine a city with good economic performance and progressive urban planning; for others it's about sustainable energy & housing. There is no perfect and definitive concept. In this breakout room we will review sustainable solutions in off- and online city development and discuss their potential for increasing citizens' welfare.

Breakout Room 2 (eng)
Green Tourism Trend – Sustainable Tourism Practices
The dynamic development of world tourism largely affects the planet we live on. Integrating tourism into nature- and people-friendly practices, initiatives for more sustainable ways of traveling are already under way. Sustainable tourism aims to increase the benefits and to reduce the negative impacts caused by tourism. In this breakout room we will explore the trend of green tourism, learn about eco-friendly practices and discuss how to become responsible travelers ourselves.

Breakout Room 3 (eng)
Smart Cities & Integrated City Development II
The concept of a „smart city" is becoming more and more relevant. Some imagine a city with good economic performance and progressive urban planning; for others it's about sustainable energy & housing. There is no perfect and definitive concept. In this breakout room we will review sustainable solutions in off- and online city development and discuss their potential for increasing citizens' welfare
